

PEDESTRIAN BRIDGE COMPETITION

The West End

Pittsburgh, PA

MADE POSSIBLE THROUGH THE GENEROUS SUPPORT OF ALCOA FOUNDATION

The West End Pedestrian Bridge Competition invited Architects, Landscape Architects, Urban Designers, Engineers, Artists, and Students from around the world to envision a new pedestrian crossing at the West End Bridge, creating new connections to both land and water.

When realized, the West End Pedestrian Bridge will provide both a destination and a connection, bringing residents and visitors alike to look out at and reflect on the exhilarating views of our hills, valleys and skyline and to celebrate the city of Pittsburgh.
