

State of Illinois Supreme Court Building

The Illinois Supreme Court Building is a 54,540 square foot, four-story building constructed in 1906 and occupied by the Supreme Court, Clerk of the Court, Library, Research Office, Marshal and archival storage.

Through the efforts of an A/E team led by 4240 Architecture, the building will undergo restoration and preservation of historic building elements, replacement of the HVAC systems, reorganization of offices, replacement of the windows, and selective remodeling for improved security and code compliance .

The project is currently in the programming and analysis phase during which the team is evaluating the existing facility, drawings, historical photos and other documents related to the building, and then identifying potential design strategies, scope items and their associated costs.

location: Springfield, IL
completion date:2011
